Teacher’s Qualifications

All of our teachers are Qualified Kindergarten Teacher and are registered with the government. Many of them have teaching qualifications from both Mainland China and from Hong Kong. They are well trained and have all the teaching skills that are required to teach to the high standards expected in our kindergarten. The ratio between teachers and children in the kindergarten is 1:15.

Demagogical grouping of our students

Most of the children in our Kindergarten are from Hong Kong, however, we also have a large amount of non-Chinese children studying with us. They are from the U.K., the U.S.A., Germany, Canada, Italy, Japan and Korea. This makes our environment truly multi-cultural where children from different kinds of environments are able to communicate and play together in both Mandarin and English.
**Tuition Fees**

Tuition fees are set according to government guidelines. The tuition fees are:

- K1 (morning, afternoon): HK$1, 737
- K2, K3 (morning): HK$1, 737
- K2, K3 (afternoon): HK$1, 679
- K2, K3 (full-time): HK$3, 071

Ten months’ tuition fees are paid each year. There is a compulsory fee of $840 every term which is used to provide snacks and drinks for the children every day. Some parents who suffer hardship can apply for their tuition fees from the government.

**School Times**

Introduction:

Kiangsu & Chekiang Primary School Kindergarten is one of the longest established kindergartens in Hong Kong, having been established in 1953.

Characteristics:

The children are taught in Mandarin with English as a second language. KCPS Kindergarten uses qualified native English and Mandarin speakers to teach in this Kindergarten, therefore the childrens’ accents and pronunciation are excellent. They are able to speak basic Mandarin within two months of entering the Kindergarten and their language abilities are developed at a steady rate together with their reading and writing skills. The children are fluent speakers of Mandarin by the time they enter primary school.

K1 concentrating on their English lesson with a Native English teacher.

Children enjoying a Mandarin lesson.
Education Specialty

A child’s learning experiences are very important to them: Where they learn, how they learn and what they learn.

Our Kindergarten places a lot of emphasis on the learning process and our teaching is based on activities which stimulate and encourage children to learn. "Education is for life: Children should be encouraged to learn through their own work." Therefore, we base our syllabus on the children’s interests, and their abilities. We encourage our children to use their imagination, to be curious, creative and affectionate. We also teach them how to explore, to problem solve, to question and to work through their learning processes.

We help children to raise their confidence by relating well to adults and other children, to share and to help each other, to work and play in small and large groups. It is good for children to build up their social contacts and to know how to relate to people in different situations. Our children are well behaved. They are confident in their social skills and use them effectively. We help them to develop their knowledge and to utilize their intelligence, physical abilities and artistic talents in our Kindergarten.

Children immersed in an Art lesson
**Kindergarten facilities**

1. The Kindergarten has many varied types of playground and sports equipment for helping to make the children fit and healthy.

2. Our school has a computer room, a library and reading room, a dancing room, an art room and a special teaching room.

There is a lot of fun in the playground.
Activities:

The school holds many activities throughout the year: For example, for Chinese New Year, Mid Autumn Festival, Halloween, Christmas and Sports Day. The children also participate in lots of different competitions in both Chinese and English, for example, poetry recitation, singing and dancing. The children are always excited about participating and we are usually placed well.

Parent-Teachers Association:

Our school’s PTA was the first one ever-established in Hong Kong in 1954.

In order to promote communication through parents, teachers and the school, the PTA provide a web-site for messages. The PTA also sponsor the ‘Good Child’ awards, scholarships and other awards.
Applications for 2007-08 are being accepted now.
